Additional Mobility Notes:
 COGO bike station on E. Whittier Street east of Jaeger Street.
 COTA bus line on E. Whittier Street.

This worksheet projects parking demand onto the current on-street network. Enter the requested reduction in parking, and the total existing spaces and counts for the entire study area for each date and time collected. The spreadsheet will calculate the current occupancy for the entire area, as well as future occupancy if 50%, 75%, and 100% of the total requested variance were to be parked within the area.

Total requested variance	75% Demand	50% Demand
227	171	114

Study Area On-Street Parking Availability - Current and Future
